

Safety Data Sheet according to Commission Regulation (EU) No 453/2010. Last
rev. 0001, 23/04/2013

1. Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Commercial name: **ECOPRIME NPS**
REACH Pre-registration No: N/A.

1.2 Relevant identified uses of the substance or mixture and uses advised against

One component water based primer for smooth and non-absorbent surfaces.

1.3 Details of the supplier of the safety data sheet

Kingfield Construction Products
20 N 4th St, Suite 300
Minneapolis, MN 55401 USA
Tel. +1 612.225.5167
Fax +1 612.225.5167
E-mail: info@kingfieldcp.com

1.4 Emergency telephone number: Kingfield Construction Products

Tel. +1 612.225.5167

Available 24 hours? No.

2. Hazards identification

2.1 Classification of the substance or mixture

The product does not need to be labeled according to CLP and GHS criteria.

2.2 Label elements

Non-dangerous product, it does not need to be labeled according EC directives.

2.3 Other hazards

The product is not in compliance with the criteria for PBT or vPvB substances (REACH annex XIII).

EU. EINECS (EINECS):

This product is in compliance with European Inventory of Existing Commercial Chemical Substances (EINECS).

US. Toxic Substances Control Act (TSCA):

All the components of this product are in compliance with the U.S. Toxic Substances Control Act inventory.

Classification and labeling have been made based on safety data sheets of the raw materials that compose the product.

3. Composition/information on ingredients

Dangerous components in compliance with Directive 1999/45/EC and Regulation EC 1272/2008:

Alcoli, C12–14-secondari, etossilati

Concentration < 2,5 % Num.

CAS: 84133-50-6

REACH Pre-registration No: not needed

Hazard pictograms: Xi

R-phrases: R36

H-phrases: H319 – Eye irr.

Xi

Irritant

For full text of hazard pictograms, R-phrases and H- phrases: see section 16. Impurity:

It does not contain relevant impurities for classification and labeling.

4. First aid measures

4.1 Description of first aid and measures

General information: no delayed effects are known. Medical attention is required for all exposure but small, showing this safety data sheet.

In case of inhalation: air the room. Remove to fresh air immediately and leave him to rest. In case of discomfort seek medical attention, showing this safety data sheet.

In case of skin contact: immediately flush skin with plenty of soap and water as a precautionary measure. Do not use abrasive or solvent substances to wash hands. If inflammation or irritation occurs, consult a doctor, showing this safety data sheet.

In case of eyes contact: immediately flush eyes with plenty of water for at least 10 mins, keeping eyelids open. If irritation persists, consult a doctor, showing this safety data sheet.

In case of ingestion: rinse mouth and drink 1-2 glasses of water. Consult a doctor, showing this safety data sheet. Never give anything by mouth to an unconscious person.

4.2 Most important symptoms and effects, both acute and delayed

Symptom: N/A.

Dangers: N/A.

4.2 Indication of any immediate medical attention and special treatment needed

N/A.

5. Firefighting measures**5.1 Thermal decomposition**

Thermal decomposition can cause acrylic monomer.

5.2 Extinguishing media

Suitable extinguishing media: water, dry chemical powder, foam, or CO₂. Use extinguishing media which are compatible with local regulations.

Unsuitable extinguishing media: n/a.

5.3 Special hazards arising from the substance or mixture

The material can cause spurt above 100°C (212°F). Dry product can burn.

5.3 Advice for firefighters

Wear self-contained breathing apparatus and extinguishing media which are compatible with local regulations. Wear protective clothing to prevent contact with skin and eyes: anti-flame overall, gloves and anti-heat shoes.

Combustion residues and extinguishing contaminated water must be eliminated in compliance with local, national, and European regulations.

6. Accidental release measures**6.1 Personal precautions, protective equipment and emergency procedures****6.1.1 For non-emergency personnel**

Keep out people that do not wear any protection equipment.

Avoid skin and eyes contact – wear suitable protection equipment (see section 8). Material can create slippery surfaces.

6.1.2 For emergency responders

Keep out people that do not wear any protection equipment.

Avoid skin and eyes contact – wear suitable protection equipment (see section 8).

Eliminate free flames and possible sources of ignition. Do not smoke.

Provide for a sufficient aeration.

Material can create slippery surfaces.

6.2 Environmental precautions

Contain spreading. Do not discharge into drains or rivers. In case of spill into water course, alert Environment Agency or any other authority for the environmental protection.

6.3 Methods and material for containment and cleaning up

Mix with sand or vermiculite. Using non-sparking tools, scoop solids into a DRY metal container, label properly and cover. Remove any sources of flame or sparks.

Small quantities: mix with absorbent materials (sand, sawdust, universal binder, diatomaceous earth, scoop solids into a suitable labeled container and dispose following current local, national, and European regulations. If the spill happens in close containers aerate the room.

Big quantities: mechanically suck the product, scoop solids into a suitable labeled container and dispose following current local, national, and European regulations. If the spill happens in close containers aerate the room.

6.4 Reference to other sections

Refers to section 8 and 13.

7. Handling and storage

7.1 Precautions for safe handling

7.1.1 Protection measures

Avoid skin, eyes, and mucous membranes contact. Wear personal protection equipment for hand, eyes, and skin (see section 8). Do not wear contact lenses while using this product. Avoid breathing vapor or mist

7.1.2 Advice on general occupational hygiene

Avoid inhalation, ingestion, or skin/eyes contact. General occupational hygiene measures are required to guarantee the safe manipulation of the material. These measures are: good personal practices, regular cleaning of the workplace, do not drink, eat, or smoke in the workplace, wash your hands after any manipulation, take shower and change clothes at end of each work shift. Do not bring contaminated clothes at home. Separate working clothes from the others. Wash them separately.

7.2 Conditions for safe storage, including any incompatibilities

Store in dry places, away from sunlight, water, and ice, at temperature between +5°C and +35°C, in its original container tightly closed. Keep away from sources of ignition. Keep out from the reach of children.

If the product is stored on the construction site, it must be protected by sun, ice and water and kept at temperature between +5°C e +35°C.

Storage/handling room must have eyewash.

When the product is heated up it is possible that it creates monomer vapors. See section 8 for ventilation/aeration equipment.

8. Exposure controls/personal protection

8.1 Control parameters

Exposure limits are listed below, when present.

8.2 Exposure control

It is recommended to use it only outside or in areas equipped with ventilation systems. Wear personal protection equipment (glasses and protective clothes, safety shoes).

Storage/handling room must have eyewash.

8.2.1 Appropriate engineering controls

None.

8.2.2 Individual protection measures, such as personal protective equipment

a) Eye/face protection

Do not use contact lenses. Wear protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European standard EN 166. Use eyes protection compatible with the system used to protect respiratory system.

b) Skin protection

Wear protective gloves suitable for chemical agents (protection index 6, equal to permeation time > 480 minutes), waterproof and in compliance with UNI EN 374 parts 1 and 2 (neoprene gloves). Always keep in mind that, because of several factors (such as temperature), the lasting of a protection glove against chemical agents can be less than permeation time tested. If gloves are damaged or worn change them. Wear standard protective clothes that can cover the entire skin surface, long trousers, long sleeved overalls tight at the ends and safety shoes.

c) Respiratory protection

Use respiratory protection equipment, CE marked, in compliance with current regulation (Directive 89/656/CEE, 89/686/CEE) when risks for respiratory system cannot be avoid or limited.

Adequately aerate room where the product is handled/stored.

d) Thermal hazards

If the product is heated up it is possible that it creates monomer vapors.

8.2.3 Environmental exposure controls

Avoid discharge into the environment. In case of massive spill into water courses, alert Environmental Agency or other agency for the environmental protection.

9. Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Appearance:	liquid.
Color:	red.
Odor:	acrylic.
Odor threshold:	N/A.
Melting point:	0°C water.
Boiling point:	100°C water.
Solubility in water:	it can be diluted.
Flammability:	non-flammable.
Explosive properties:	non-explosive.

Note: The values presented above about the physical and chemical properties are typical values for this product and should not therefore be considered as a specification.

9.2 Other information

Miscibility in water: miscible.

10. Stability and reactivity**10.1 Reactivity**

Stable under recommended transport or storage conditions.

10.2 Chemical stability

Stable under recommended transport or storage conditions.

10.3 Possibility of hazardous reactions

No dangerous reaction under recommended transport or storage conditions.

10.4 Conditions to avoid

Store in dry places, away from sunlight, water, and ice, at temperature between +5°C and +35°C, in its original container tightly closed. Keep away from sources of ignition. Keep out from the reach of children.

If the product is stored on the construction site, it must be protected by sun, ice and water and kept at temperature between +5°C e +35°C.

Storage/handling room must have eyewash.

When the product is heated up it is possible that it creates monomer vapors. See section 8 for ventilation/aeration equipment.

10.5 Incompatible materials

Keep away from acids, free flames, ignition spark and heat sources.

10.6 Hazardous decomposition products

When the product is heated up it is possible that it creates monomer vapors.

10.7 Polymerization

The product does not create polymerization.

11. Toxicological information

Acute toxicity:	Oral LD ₅₀ > 5000 mg/kg weight (rat);
Skin corrosion/irritation:	Dermal irritation (rabbit): LD ₅₀ > 5000 mg/kg weight. It can cause temporary irritation No eyes irritation for rabbit.
Respiratory irritation:	the eventual exposure to fumes caused by high temperature can be irritant for the respiratory system.
Respiratory or skin sensitization:	N/A
Germ cell mutagenicity:	N/A
Carcinogenicity:	N/A
Reproductive toxicity:	N/A
Growth toxicity:	the available data do not allow a proper assessment of a possible toxic effects of the substance.
Repeated dose toxicity and specific organ toxicity (prolonged exposure):	N/A

Other indications on toxicity: in case of proper use and handling in accordance with the requirements, based on our experience and the information available, the product do not cause adverse health effects.

The product was not tested. The data reported in this paragraph are based on the information contained in safety data sheets of the raw materials that compose the product.

12. Ecological information

Use according to good working practices, avoiding disposal in the environment.

12.1 Toxicity

12.1.1 Acute/prolonged toxicity on fishes

Componente: Alcoli, C12-14-secondari, etossilati

CL₅₀ Pimephales promelas 96 h 2 000 mg/l

CL₅₀ Fish 96 h >100 mg/l

12.1.2 Acute/prolonged toxicity on aquatic organism

N/A

12.1.3 Acute/prolonged toxicity on aquatic plants

N/A

12.1.4 Toxicity on microrganism (eg. bacteria)/effect on active fungus

N/A

12.1.5 Chronic toxicity on aquatic organism

N/A

12.1.6 Toxicity on soil organism

N/A

12.1.7 Toxicity on plants

N/A

12.1.8 General effect

N/A

12.2 Persistence and degradability

N/A

Consideration on disposal: N/A.

Do not pour the product into pipelines and waterways, if the product has flowed into a water course, into the drainage system, or has contaminated the ground or vegetation, notify the competent authorities.

12.3 Bioaccumulative potential

N/A

12.4 Mobility in soil

Assessment on transport between environmental compartments: N/A

12.5 Results of PBT and vPvB assesment

N/A

12.6 Other adverse effects

N/A

12.7 Additional indication

AOX: N/A

The product was not tested. The data reported in this paragraph are based on the information contained in safety data sheets of the raw materials that compose the product.

13. Disposal considerations

13.1 Waste treatment methods

Coagulate the emulsion by the stepwise addition of ferric chloride and lime. Remove the clear supernatant and send it into the chemical sewer collection. For disposal, eliminate the product in a suitable incineration plant, in accordance with local, national, and European regulations.

The preparation is not suitable for disposal in landfills and/or public waters, canals, natural waterways, or rivers. The package used is intended exclusively for the packaging of this product, it must not be reused for other purposes. Containers, even when completely empty, must not be discarded in the environment and should be subjected to a decontamination treatment before being sent for disposal. If they contain residues must be classified, stored, and sent to a suitable treatment facility in accordance with applicable local, national and EU regulations.

14. Transport information

Product classified as non-dangerous for transport (land transport ADR/RID, sea transport AND/IMDG / GGVSea, air transport IATA/ICAO).

14.1 UN number

Not regulated.

14.2 UN proper shipping name

Not regulated.

14.3 Transport hazard class(es)

Product classified as non-dangerous for transport.

14.4 Packaging group

Not regulated.

14.5 Environmental hazards

Product classified as non-dangerous for transport.

14.6 Special precautions for user

Product classified as non-dangerous for transport.

14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC code

Product classified as non-dangerous for transport.

Transportation classifications may vary according to the capacity and the type of container and according to the different national legislations.

15. Regulatory information

15.1 Safety, health, and environmental regulations/legislation specific for the substance or mixture

Authorization: not requested.

Restrictions on the use: none.

Other European regulations: the product does not contain substances listed in SEVESO Directive, neither substances that deplete the ozone layer nor persistent organic polluting substances (POP).

Council Directive 67/548/EEC of 27 June 1967 on the approximation of laws, regulations and administrative provisions relating to the classification, packaging, and labeling of dangerous substances; Directive 2006/8/CE (D.M. 03/04/2007);

Regulation (EC) No 1907/2006 on the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH), establishing a European Chemicals Agency;

Regulation (EC) No 1272/2008 on classification, labeling and packaging of substances and mixtures.

National regulation: D.P.R. 1124/65 (testo unico delle disposizioni per l'assicurazione obbligatoria contro gli infortuni sul lavoro e le malattie professionali); D. Lgs n. 475/82 e s.m.i. (Attuazione della Direttiva 89/686/CEE del Consiglio del 21/12/1989 in materia di ravvicinamento delle legislazioni degli Stati Membri relativi ai dispositivi di protezione individuale);

Legge n. 52 del 03/02/1997; D.M. 28/04/1997;

D.M. 04/04/1997;

D.M. 07/09/2002 (Attuazione delle direttiva 2001/58/CE);

D. Lgs. 65 del 14/03/2003 (Attuazione delle Direttive 1999/45/CE e 2001/60/CE);

D. Lgs n. 152/2006 e s.m.i. (norme in materia ambientale);

D. Lgs. 81/2008 e s.m.i. (attuazione dell'art. 1 della Legge 03/08/2007 in materia di tutela della salute e della sicurezza nei luoghi di lavoro).

15.2 Chemical safety assessment

Not needed. Exempt from REACH registration.

16. Other information

16.1 Danger symbol

Xi irritant.

16.2 Hazard statements (H-phrases)

H 319: Causes serious eye irritation.

16.3 Precautionary statements (P-phrases)

P102: Keep out of reach of children.
 P280: Wear protective gloves/protective clothing/eye protection/face protection.
 P305/P351: IF IN EYES: Rinse continuously with water for several minutes.
 P310: Immediately call a POISON CENTER or doctor/physician.
 P302/P352: IF ON SKIN: Wash with soap and water.
 P304/P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
 P338: Remove contact lenses if present and easy to do. Continue rinsing.

16.4 Relevant R-phrases

R 36: Irritating to the eyes.

16.5 Relevant S-phrases

S2: Keep out of the reach of children.
 S25: Avoid contact with eyes.
 S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
 S37: Wear suitable gloves.
 S39: Wear eye/face protection.

16.6 Abbreviations and acronyms

EC₅₀: median effective concentration
 LC₅₀: median lethal concentration
 LD₅₀: median lethal dose
 NOEC: no observable effect concentration
 PNEC: predicted no-effect concentration
 OEL: occupational exposure limit
 PBT: persistent, bioaccumulative, toxic chemical
 vPvB: very persistent, very bioaccumulative
 STEL: short-term exposure limit
 TWA: time weighted average
 OIM: International Maritime Organization
 IMDG: International Maritime Dangerous Goods
 IATA: International Air Transport Association
 ADR/RID: Agreement on Dangerous Goods by Road / Regulations concerning the Intl Transport of Dangerous Goods by Rail.
 SCOEL: Scientific Committee on Occupational Exposure Limits.
 CSAH: Comité Scientifique en matière d'Alimentation Humaine.

Disclaimer:

This Safety Data Sheet (SDS) is based on the legal regulations listed in REACH Regulation (CE/1907/2006), and successive amendments and integration.

The information enclosed in this SDS are based on the information reported in the SDS of the raw materials that composed the product and are based on our knowledge at the above date. The information relates only to this specific product and may not apply to the same when used in combination with other materials or in any process unless specified in product safety data sheet. They are only reported to the indicated product and they do not constitute guarantee of special qualities.

No statement or guarantee concerning accuracy, reliability and completeness of the information contained in this SDS is released. The Company does not assume any liability for damages to persons or property that may result from use the product other than that for which it was intended. The SDS does not replace but complements the text or the rules that regulate the activity of use.

The user must make sure of these information suitability and completeness in relation to the specific use he has to do.

This schedule revokes and replaces any previous edition.

Indications of changes to the previous version of the SDS: review of the entire document. This

SDS is available in electronic format on the website: www.kingfieldcp.com.
