

Conforms to HazCom 2012/ United States

Safety Data Sheet

SECTION 1. IDENTIFICATION

GHS product Identifier : Primetak Detail Tape
Other means of identification : Not available

Relevant identified use of the substance or mixtures and uses advised against:

Polymer modified bitumen membrane seaming tape used to seal seams on self-adhesive water proofing membrane/vapor retarder.

Supplier's details

Kingfield Construction Products
20 N 4th St, Suite 300
Minneapolis, MN 55441

Emergency telephone number (with hours of operation)

(612) 225-5167 (24/7)

Email

info@kingfieldcp.com

SECTION 2. HAZARDS IDENTIFICATION

OSHA/HCS status: While this material is not considered hazardous by the OSHA Hazardous Communications Standard (49CFR1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

Classification of the substance or mixture : Not classified

GHS label elements

Signal word : No signal word

Hazard statement : No known significant effects or critical hazards.

Precautionary statements

Prevention : Not applicable

Response : Not applicable

Storage : Not applicable

Disposal : Not applicable

Hazards not otherwise classified : None known

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture : Mixture

Other means of identification : Not available

CAS number/other identifiers

CAS number : Not applicable

Product code : Not applicable

*Occupational exposure limits, if available, are listed in section 8.

SECTION 4. FIRST AID MEASURES

Description of necessary first aid measures.

- Eye contact** : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if symptoms occur.
- Inhalation** : Not likely to occur under normal use. Possible exposure to toxic fumes if burned.
- Skin contact** : Wash with soap and water. Get medical attention if symptoms occur.
- Ingestion** : Not likely to occur under normal use. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.

Most important symptoms/effects, acute and delayed:

Potential acute health effects

- Eye contact** : No known significant effects or critical hazards
- Inhalation** : No known significant effects or critical hazards
- Skin contact** : No known significant effects or critical hazards
- Ingestion** : No known significant effects or critical hazards

Over-exposure signs/symptoms

- Eye contact** : No known significant effects or critical hazards
- Inhalation** : No known significant effects or critical hazards
- Skin contact** : No known significant effects or critical hazards
- Ingestion** : No known significant effects or critical hazards

Indication of immediate medical attention and special treatment needed, if necessary.

- Notes to physician:** : No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- Specific treatments** : No specific treatment
- Protection of first-aiders:** : No action shall be taken involving any personal risk or without suitable training.

SECTION 5. FIRE-FIGHTING MEASURES

Extinguishing media

- Suitable extinguishing media** : Use an extinguishing agent suitable for the surrounding fire.
- Unsuitable extinguishing media** : None known
- Specific hazards arising from the chemical** : No specific fire or explosion hazard.
- Hazardous thermal decomposition products** : Decomposition products may include the following materials: Carbon Dioxide, Carbon Monoxide Sulfur oxides, and Low MW hydrocarbons
- Special protective equipment** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full-face piece operated in a positive pressure mode.
- Special protective actions for fire fighters** : No special protection is required

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures.

- For non-emergency personal** : Put on appropriate personal protective equipment.
- For emergency responders** : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials.
- Environmental precautions** : Not applicable

Methods and materials for containment and clean up

Spill : Due to the physical state of this material, spills are not possible.

SECTION 7. HANDLING AND STORAGE

Precautions for safe handling

Protective measures : Put on appropriate personal protective equipment (see Section 8)

Advice on general occupational hygiene Eating, drinking and smoking should be prohibited in areas where material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See section 8 for additional information on hygiene measures.

Conditions for safe storage, including any incompatibilities Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry cool and well-ventilated area away from incompatible materials (see section 10) and food and drink.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Occupational exposure limits None

Appropriate engineering controls : No special ventilation requirements. Good ventilation should be sufficient to control worker exposure to airborne contaminants.

Environmental exposure controls : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

Hygiene measure: : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking, and using the lavatory and at the end of the working period. Ensure that eyewash stations and safety showers are close to the work station location.

Eye/face protection : Safety eyewear complying with an approved standard should be used when risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases and dusts.

Skin Protection

Hand protection : Chemical- resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection : Use a properly fitted, particulate filter respiratory complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance

Physical state : Solid
 Color : Black/white
 Odor : Asphaltic (slight)
 Odor threshold : Not available
 pH : Not applicable
 Melting point : Not available
 Boiling point : Not applicable
 Flash Point : Not applicable
 Burning time : Not determined
 Burning rate : Not determined
 Evaporation rate: : Not applicable
 Flammability (solid, gas) : Not applicable
 Lower & upper explosive (flammable) limits : Not applicable

Vapor density : Not applicable
 Vapor pressure : Not applicable
 Relative density : 1.09
 Solubility : Insoluble in water
 Partition coefficient: n- octanol/water : Not available
 Auto- ignition temperature : Not applicable
 Decomposition temperature : Not applicable
 SADT : Not applicable
 Viscosity : Not applicable
 VOC : 0 g/l

SECTION 10. STABILITY AND REACTIVITY

Reactivity : No specific test data related to reactivity available for this product or its ingredients.
 Chemical stability : This product is stable.
 Possibility of hazardous reactions : Under normal conditions of storage and use, hazardous decomposition products should not be produced.
 Conditions to avoid: : No specific data.
 Incompatible materials : Reactive or incompatible with the following materials: Oxidizing materials
 Hazardous decomposition products : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity : There is no data available
Irritation/Corrosion
 Skin : There is no data available
 Eyes : There is no data available
 Respiratory : There is no data available
Sensitization
 Skin : There is no data available
 Respiratory : There is no data available
 Mutagenicity : There is no data available

Carcinogenicity : There is no data available
Reproductive toxicity : There is no data available
Specific target organ toxicity (single exposure) : There is no data available
Specific target organ toxicity (repeated exposure) : There is no data available
Aspiration hazard : There is no data available
Information on the likely routes of exposure : Routes of entry anticipated: dermal
 : Routes of entry not anticipated: Oral, inhalation, ingestion

Potential acute health effects

Eye contact : No known significant effects or critical hazards
Inhalation : No known significant effects or critical hazards
Skin contact : No known significant effects or critical hazards
Ingestion : No known significant effects or critical hazards

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact : No known significant effects or critical hazards
Inhalation : No known significant effects or critical hazards
Skin contact : No known significant effects or critical hazards
Ingestion : No known significant effects or critical hazards

Delayed and immediate effects and chronic effects from short and long term exposure

Short term exposure

Potential immediate effects : No known significant effects or critical hazards
Potential delayed effects : No known significant effects or critical hazards

Long term exposure

Potential immediate effects : No known significant effects or critical hazards
Potential delayed effects : No known significant effects or critical hazards

Potential chronic health effects

General : No known significant effects or critical hazards
Carcinogenicity : No known significant effects or critical hazards
Mutagenicity : No known significant effects or critical hazards
Teratogenicity : No known significant effects or critical hazards
Developmental effects : No known significant effects or critical hazards
Fertility effects : No known significant effects or critical hazards
Target organs : No known significant effects or critical hazards

Numerical measures of toxicity

Acute toxicity estimates : There is no data available

SECTION 12. ECOLOGICAL INFORMATION

Toxicity : There is no data available

Persistence and degradability : There is no data available

Bioaccumulative potential : There is no data available

Mobility in soil

Soil/water partition coefficient (KOC) : Not applicable

Other adverse effects : No known significant effects or critical hazards

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.

SECTION 14. TRANSPORTATION INFORMATION

AERG: : Not applicable

Regulatory Information:

DOT/TDG/IMDG/IATA : Not regulated

SECTION 15. REGULATORY INFORMATION

U.S. Federal regulations:

TSCA 8(a) CDR Exempt/Partial exemption : Not determined

United States inventory (TSCA 8 b) : All components are listed or exempted

Clean Air Act Section 112 (b) Hazardous air pollutants (HAPs) : Not listed

Clean Air Act (CAA) Section 602 Class I Substances : Not listed

Clean Air Act (CAA) Section 602 Class II Substances : Not listed

DEA List I Chemicals (Precursor chemicals) : Not listed

DEA List II Chemicals (Essential Chemicals) SARA 302/304 : Not listed

Composition/information on ingredients : No products found

SARA 304 RQ : Not applicable

SARA 311/312

Classification : Not applicable

State regulations

Massachusetts : The following components are listed: Petroleum asphalt

New Jersey : The following components are listed: Petroleum asphalt

New York : None of the components are listed

Pennsylvania : The following components are listed: Petroleum asphalt

California Prop.65 : No products were found

International regulations

International lists

: Australia inventory (AICS) : all components are listed or exempted

: China inventory (IECSC) : all components are listed or exempted

: Japan inventory : Not determined

: China inventory (IECSC) : All components are listed or exempted

: Korea inventory : All components are listed or exempted

: Malaysia inventory (EHS Register) : Not determined

: New Zealand Inventory of Chemicals (NZIoC) :All components are listed or exempted

: Philippines inventory (PICCS) : All components are listed or exempted

: Taiwan inventory (CSNN) : Not determined

Chemical Weapons Convention List schedule I Chemicals : Not listed
Chemical Weapons Convention List schedule II Chemicals : Not listed
Chemical Weapons Convention List schedule III Chemicals : Not listed

16. OTHER INFORMATION

Hazardous Material Information System (USA)

Health -1 Flammability-0 Physical hazards-0

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings are not required on SDSs under 29 CFR1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with fully implemented HMIS® program. HMIS® is a registered trademark of the National Paint & Coating Association (NPCA). HMIS® materials may be purchased exclusively from J.J. Keller.

National Fire Protection Association (USA) NFPA 704

Health -1 Flammability-0 Instability-0

NFPA-704 was copyrighted by the National Fire Protection Association of Quincy, MA. This warning system is intended to be interpreted and applied only by properly trained individuals to identify fire, health and reactive hazards of chemicals. The user is referred to certain limited number of with recommended classifications in NFPA 49 and NFPA 325, which would be used as guidelines only. Whether the chemicals are classified by NFPA or not, anyone using the 704 systems to classify chemicals does so at their own risk.
